Some time ago much complaint was heard from many of our best farmers that the wheat crop was almost ruined by the Hessian fly, but the fly time has past and despite the many complaints the people of Adair county will have more wheat at threshing time than they have had for several years. Some crops were seriously damaged but the superior crops in adjacent fields will more than offset the losses as compared with an average year.

The show which will exhibit at Campbellsville next Tuesday is said to be a band of thieves who are accompanying it for the purpose of fleecing the unsuspecting. They have all kinds of games and the people are invited to play. If you do not want to put up less money than you put down, keep away from the enticing stands. A Glasgow gentleman informs us that many people in Barren county were swindled "agoging and acoming."

The many good rains that have wa-tered this section for the last two or three weeks have been a wonderful help to tobacco. The acreage, as we are informed, surpasses any previous year and the condition of the crop at this date was never surpassed. Unless the price for tobacco declines the farm-ers of this county will likely bring into Adair county next winter a big amount of money. Our farmers are learning that diversified farming is the surest for a good living and a safe and sure profit.

A few days ago Mr. N. M. Tutt, this city, was informed that some of his young dogs had been chasing sheep and in order to prevent further trouble Mr. Tutt has adopted he thinks, a sure way to prevent his hounds from prey-ing upon domestic animals. He pro-cured a very large ram and now has this vicious sheep in his kennel. Whether or not the ram will cure the dogs from the desire to chase sheep we are unable to say, but it looks like a kill or cure remedy. The result will be announced later.

Serious Difficulty.

Last Saturday afternoon, about 6 o'clock, a trouble that has been brew-ing for some weeks, culminated in a se-rious difficulty between Ex-State Sena-tor Geo. Neil and Adair and Cumber-land's present Representative, M. Rey Yarberry.

These gentlemen have not been on good terms for some time. They are both Republicans and their estrange-ment is due to political matters in their own party.

At the hour mentioned above they met near Willis Bros., store. The words that passed between them we can not give for the reason no one seems to know. From the best infor-mation we can get but few words were exchanged until the fight was on, Mr. Neil using a cane while Mr. Yarberry used a pocket knife. Mr. Yarberry received several hard licks, while Mr. Neil received two or three cuts about the head and face. The wounds are not considered dangerous but they are serious cuts. It is said the knife used was a small pocket instrument and owing to this and the timely assist-ance of Mr. E. G. Atkins and others in separating the combatants doubt-less Mr. Neil would have been more seriously hurt. Mr. Yarberry's head was considerably bruised but no blood was drawn.

Mr. Neil's wounds were dressed by Drs. C. M. Russell and W. R. Grissom, after which, he got into a buggy and was driven to his residence.

It is to be hoped that no more trou-ble will follow; that good judgment and wise council will prevent a repeti-tion of the difficulty.

Judge W. E. Russell Dead.

Judge William E. Russell died at his home in Lebanon last Friday morning of a complication of diseases, incident to old age. For several months he had been unable to leave his room, but during the past week his condition be-came alarmingly worse, and his death was not unexpected.

Judge Russell was born October 6, 1830, in Adair county. He received his education in the schools of his native county, and at the age of seventeen entered upon the study of law under the instruction of Isaac Caldwell. Be-ing an ambitious young man and a good student his progress was rapid, and in 1849, at the age of nineteen, he was du-ly admitted to the bar at Columbia.

He removed to Lebanon in 1867, and had since that time been one of the county's most respected citizens. Un-till his retirement from active life a year or so ago he was a leading lawyer at the local bar, and had attained a great deal of prominence all over the State. Judge Russell had held many positions of trust, among them the Circuit judg-ship of this district. He was elected in 1886, when the district was com-posed of Marion, Washington, Mercer, Nelson, Taylor and Lurie. He served two terms in the Kentucky Legisla-ture and was at one time Supreme President of the Catholic Knights of America. Judge Russell was a Cap-tain in the Mexican war under "Cerro Gordo" Williams. He leaves a wife and six children, two of whom, S. A. and Leo Russell, are members of the local bar.

OBITUARY.

Claud H. Penick was born May 12, 1872, departed this life, June 15, 1900, aged 28 years, 1 month and 3 days. He was born and reared in Green county, near Camp Knox. His kind and gen-erous hearted disposition won for him many friends. His life was not free from afflictions, care and trouble, but he bore them all with cheerful fortitude, which rendered him the idol of his family's affections. He desired to live and enjoy life with his friends, until so tortured in body and agitated in mind, that a slavish world lost to him all charms. As the shadows of death gathered around him, his hopes for heaven grew brighter and leaning stoutly on the everlasting arms, his spirit took its flight to the home of the blest, where the weary are at rest. His funeral was preached at the residence by the writer, attended by a large con-course of sorrowing friends and relatives the remains laid to rest in the family burying ground. It is said to give up our friends in the bloom of life, yet heaven is only made the brighter by them having gone there and our Lord who knoweth best doth all things well. W. T. Salmon.

Better Mail Facilities.

There is an effort on foot to have better mail facilities between this place and Campbellsville. Mr. J. O. Russell has particularly interested himself in the matter, and forwarded a letter to Congressman Boreing, asking his as-sistance. The following letter from Acting Assistant Postmaster General G. F. Stone, to Mr. Boreing, shows that the matter will be considered:

Dear Sir: Acknowledging the receipt of the letter addressed to you by Mr. J. O. Russell, of Columbia, Ky., filed by you in this office, asking for an increase in the service on route No. 29767, Camp-bellsville to Columbia, Ky., from six to twelve times a week. I have the honor to inform you that the matter will re-ceive prompt attention, and you will be advised of the final action taken by this office in the due course of busi-ness.

It is not too late to sow peas and procure good results and there is not a crop of anything that will improve land for the same cost as peas, besides when cut at the proper stage no better feed can be made for cattle. Every farmer should sow peas. If afraid to invest liberally in this valuable crop why not try an acre or two. Sow about three-quarters of a bushel to an acre and put them up as clover and you will not regret it. If you mean to sow a crop or want to experiment in a small way don't put it off too long but sow while the season is on.

All parties who planted shade trees last spring should mulch them with rotten straw which will keep the ground moist and protect them from the dry hot weather of summer. If your trees are living now don't allow them to die later on by indifference. The above remedy will save every one.

Mr. R. W. Allen, Eunice, was in town Monday and informed us that he was in earnest in regard to building a telephone line from this town to Dun-ville, by the way of Vester, Purdy, Eunice and Pellyton. This would be a valuable line and should be built. Mr. Allen proposes a joint stock company and will take a good amount of stock himself. The merchants and other business men of this town ought to as-sist in this matter.

The business of the enumerators is strictly private. They are not allowed under the law to divulge anything. We calculated to give the population of Columbia in advance, but owing to the disposition of Dr. Grady and Mr. A. D. Patteson to be perfectly quiet upon that subject, the matter is de-ferred. The enumerators have many questions to ask and some people do not like to be interrogated too closely and it requires some explanation to get them so to do, but they must re-member that a failure to answer is liable to give them trouble, and it is best to make truthful replies promptly. The information given the enumerators is strictly confidential.

Mr. J. L. Wilson, who is known to many citizens of Columbia, has again embarked in the drug business at Greensburg, having purchased the en-tire stock, which was owned by the Heizer Co. Mr. Wilson is an experi-enced druggist, an excellent and pop-ular gentleman and there is not a doubt but his old customers will again favor him with their trade. We trust that his medicines will cure all the sick; that he may never have to take any himself, but will continue to live on and on, doing good for his fellow men and his little family, who are looking to him for future prosperity. There is an old adage, "There is room at the top," and from a poor boy Lap-sley Wilson is steadily climbing.

As announced in last week's issue of the News, Mr. S. T. Hughes and Miss Susie K. Murrell were united in the holy bonds of matrimony last Tuesday morning at the home of the bride's parents Mr. and Mrs. M. J. Murrell, Rev. T. L. Hulse officiating.

The waiters were Miss Julia Smith and Mr. James Hughes; Miss Irene Doh-oney and Mr. C. M. Murrell. Quite a number were present to witness the ceremony and to extend congratula-tions. Mr. Hughes is one of Adair's most progressive farmers and a young man of high moral standing. The bride is a young lady, well educated and possesses all the accomplishments that make a lovable character and a happy home. The News extends con-gratulations and trusts that the power of unadulterated love may shine through all their future years.

Monday was circuit court at James-town and the crowd seen upon the streets was much smaller than usual owing to harvest which is in full blast and other work pressing the farmers. A happy band of Columbians took an outing last Wednesday afternoon, driving to the Griffin Springs, where several hours were spent very deligh-tfully in social converse and listening to excellent music, etc. The water at this noted spring is an appetizer and at sunset all present did justice to a magnificent lunch which the ladies spread upon the grounds. While re-freshments were being served Mr. W. S. Barker, who is invariably prepared for such occasions, caught the group with his kodak which, when complet-ed, will look somewhat realistic. After tea the party started home, reaching Columbia about ten o'clock, a good pike and a moonlight night affording a splendid drive. In the crowd were:—Mr. and Mrs. W. A. Coffey, Mr. and Mrs. W. S.
